**BUCK
CAST**

**BROS.
STEEL**

OR

BUCK BROTHERS,

MANUFACTURED AT THE

RIVERLIN WORKS,

MILLBURY, MASS., U. S. A.

FORMERLY OF SHEFFIELD, ENGLAND.

FOR SALE BY

ASK FOR TOOLS STAMPED WITH THE **BUCK'S HEAD**.
SMALL TOOLS THAT WILL NOT ADMIT OF BEING STAMPED
WITH THE BUCK'S HEAD ARE STAMPED **BUCK BROTHERS**
IN FULL. ALL OF OUR BOXES ARE LABELED WITH THE BUCK'S
HEAD, WHICH IS OUR TRADE MARK.

Woodworkers :—

For fifty years the tools made by BUCK BROTHERS have had the reputation among the Woodworkers of the United States as being the best tools manufactured, and although higher in price than others, constant use has proved them to be the *cheapest to the man who earns his living by their use*, as they will hold a fine cutting edge longer than other tools.

Special Notice :—

The quality of the Steel and fine Temper in our Chisels, Gouges, and other Tools, will admit of their carrying an extremely keen cutting edge.

 We strongly recommend the use of a Strop of leather after honing on an oil-stone, which will produce an edge never before attained.

Stock :—

Our Warehouse contains the best assortment of Chisels, Gouges, Light Edge Tools, Carving Tools and Razors, to be found in the United States.

Our Tools and Razors are stamped with the Buck's Head, or Buck Brothers, as here shown.

Warranty :—

All our tools we warrant perfect, and we will replace any that may prove defective in material or manufacture, but this does not cover tools damaged by misuse or carelessness, or tools broken where the steel is sound. If a tool proves defective, it should be returned to the dealer from whom it was purchased within 60 days from date of purchase.

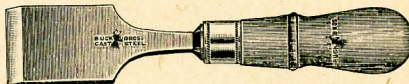

Razors are warranted free from defects in manufacture, and to prove satisfactory in use. If kept *bright*, and not otherwise damaged, they can be exchanged if not satisfactory after using, if returned to the dealer within 30 days from date of purchase.

HANDLED BUTT CHISELS,

Ground Sharp and Honed. Nine inches long over all. Used for fitting in butts when hanging doors. (Sometimes called Pocket Chisels.)

Plain Edges.

Chicago, 1893.

Two Prize Medals. Described in official report as "Edge Tools of exceptionally good quality." "The handles and handling are excellent."

Manual Training Schools.

BUCK BROTHERS,
MILLBURY, MASS.

OFFICE OF THE
MECHANIC ARTS HIGH SCHOOL,
BOSTON, MASS., Jan. 25, 1899.

Gentlemen:—

There are in use in the Mechanic Arts High School, the following tools of your make, which have been purchased during the last five years:

Two hundred seventeen sets of Carving Tools, sixteen in a set,	} 5,770 Tools.
Three hundred twenty-seven sets of Carpenters' Chisels, four in a set,	
Ninety sets of Wood Turning Tools, eleven in a set,	

We have, also, a considerable number of special Chisels and Gouges. These tools were purchased because we believed them to be the best available, and we have had no occasion to regret our choice. No more than six or eight defective tools have been discovered, and these have been promptly replaced by perfect ones without expense to the school.

Your house is to be commended both for the uniform excellence of its products, and its eminently satisfactory business methods.

Very truly yours,

CHARLES W. PARMENTER, Ph. D., *Head Master.*

PUBLIC SCHOOLS, DISTRICT OF COLUMBIA,
MANUAL TRAINING DEPARTMENT,
WASHINGTON, D. C.,

Gentlemen:—

February 1, 1896.

We have in use in the wood-working shops of this department,

216 Sets of your regular bench Chisels and Gouges.

18 Sets of Turning Tools.

11 Sets of Wood Carving Tools, together with Nail Sets and Screw Driver Bitts, aggregating over **3,100 Tools**. Some of them have been in constant use more than nine years.

As to the satisfaction they have given I need only to say that, after so long trial we gave them the preference in fitting up a new shop last summer.

I take pleasure in testifying to the high standard of excellence possessed by your tools.

Yours truly,

J. A. CHAMBERLAIN, *Director.*

BUCK BROTHERS,
MILLBURY, MASS.
